Congratulations newsletter team, of staff and students for putting out the latest 11<sup>th</sup> edition of our college e-news letter 'Pharmabuzz@ACPians', at Anand College of Pharmacy, as a part of our continuous activities.

All college activities and events are duly noted up to the latest event, as the 'World Pharmacist day celebrations actively observed by the students and staff this 25<sup>th</sup> of September, 2018. With this, I once again would like to remind the message delivered on the day that "The science and technology alone, can not take away all the ills, misery and pains of mankind. We all health professionals as Pharmacists need to utilize this noble opportunity being in this profession to serve the community by using technological skill to their best of the abilities with right balance of kindness and compassion for self growth as well as others".

Pl. keep up the good work and try to achieve the target set for achieving good university results, by taking all CPT and PUT tests sincerely and positively as sounding rehearsal board. Also, put your best foot forward in what you are doing either study or extracurricular and cultural activities. 'Work while you work and play while you play' but please, make the best of the moment and give it your best.

**Best Wishes**  
**Dr. Kashmira J. Gohil**  
**Dean, ACP**

## "Teacher A Guiding Soul"

***"Failure comes only we forget only ideas, subjectives & principles"  
..... Jawahar Lal Nehru***

Teachers have always been considered as the pillars & makers of society whatever teaching they give their students, they follow it. Teachers have always been considered as one of the first guide & friend of any individual. They are National builders & the future of the country. In fact, every teacher is the guiding soul. They have a great mission to make students self dependent, confident & noble citizens of every Nation. They have unlimited responsibilities. They are not limited just to complete the syllabus only.

***According to Alexendra k. Trev. "The best teachers are those who show you where to look but don't tell you what to see."***

Thus, it is evident from the above fact that "Teachers shape the future of a human being. They are the people who hold the candle of enlightenment, knowledge & prosperity." The past reveals that their place in the society was next to God.

Any country who does not honor its candle bearers can never be prosper & will ever remain in darkness. Advancement of every society depends upon its teachers.

Teachers are the beacons & guiding forces of the society. They are the hallmark of education.

***As Henry Brooks Adams once said, "A teacher affects eternity, he can never tell where his influence stops."***

Teachers have always been considered as the pillars & makers of society, whatever teaching they give their students, they follow it. Teachers have always been considered as one of the first guide & friend of any individual. They are National builders & future of the country.
