Edition : 17 - 18 (Nov 20 - Oct 21)

#### Director's Message

Congratulations to our new media team for releasing the latest, combined editions of our college e-news letter 'Pharmabuzz@ACPians' from Anand College of Pharmacy. Keep up the good efforts. This newsletter lists all the academic, scholastic and other extracurricular activities carried out by the staff and students in college on online platform or offline mode till now.

The new session in 2021 has already started and we are ready with yet another batch of full intake of 100 newcomers in B. Pharm and that of 60 in D. Pharm. With few new admissions in M. Pharm, Pharmacology also, I am happy to state that we are now a big academic family of more than 450 students in ACP, officially approved by Pharmacy council India (PCI) & Board of technical education (BTE). We have already welcomed all newcomers on the orientation day and the academic activities have started in full swing in college with lectures and labs as the newcomers initiated their journey. We are all set to take new challenges.

From last 02 years we all have been passing through a tough time due to covid pandemic which has created havoc globally with loss of millions of lives apart from great economic crisis all over the world. I extend my personal prayer with empathy to each one who might have lost their loved ones in their families or suffered in this pandemic. With past lockdowns in various phases, the regular routine went for a toss. But Anand College of Pharmacy has diligently worked even in this situation providing regular teaching online even before the first national lockdown was announced. We take care of students and community in general. Pharmacy is one such noble and steady professional for research, formulating drugs and vaccines and

thus creating demands for pharmacy professionals. Pharmacy is that boon, once you study; you can even help yourself, your family and your neighbors and community for taking proper precautions, creating awareness and right information about disease and medicines, right administration and compliance.

Today Pharmacy profession is not just confined to industry alone. It has expanded immensely and there are lots of opportunities available in Clinical Research, Nanotechnology, Drug Discovery, Molecular Biology, P h y t o c h e m i s t r y ,

Pharmacovigilance and many more. Pharmacy discipline has grown tremendously and recent advances in technology have created plenty of job and research opportunities. Let's not forget, there are huge challenges in highly competitive job market globally today and we have to ensure that our students are ready for them. You must have heard, 'when a student is ready, the teacher appears'. I just want to say that, we have good facilities and faculties, a place and promise for opportunities. The students need to have is the right 'intention' to learn with good aptitude and attitude. All students, please, develop and master these qualities. 'A journey of a thousand miles begins with a single step'. We, at Anand college of Pharmacy help them take this initial step. If you focus on study with good intention, you will succeed in all subsequent steps. All faculties and staff too need to be all prepared to take new challenges and orient and guide all the students to this professional path they have chosen. Remain a student lifetime with a keenness to learn. Also, when we teach effectively, we always learn.

I want to remind you at the same time that the covid is still not over. You are now attending college in person after your full vaccination to go to your classes and labs; so, you still need to be very careful with these three precautions as you are already aware, Please wear your mask, sanitize and maintain social distancing. Kindly implement it on daily basis, for your own safety without waiting for further reminders from others.

We have to adapt and embrace the change as the time demands and move on.

May you all be happy, healthy and whole this Diwali.

Best Wishes,  
Prof. (Dr.) K. J. Gohil
